

## NEEDS IDENTIFIED BY TI GEORGIA'S COMMITTEE OF CONCERNED CITIZENS IN KAKHETI IN 2019

საერთაშორისო გამჭვირვალობა საქართველო  
TRANSPARENCY INTERNATIONAL GEORGIA

TI Georgia's Committees of Concerned Citizens (CCCs) have identified up to 30 infrastructural problems/needs in 12 settlements in the four municipalities of Kakheti (Signaghi, Telavi, Kvareli, Akhmeta).

The citizens interviewed by TI Georgia's Committees of Concerned Citizens have identified the following issues and needs: rehabilitation of the drinking and irrigation water systems, improvement of the internal district and central roads leading to the central highway, improvement of the drainage canals, construction of the ambulatory clinics, rehabilitation of kindergartens, etc.

The Committees of Concerned Citizens are informal associations of citizens created through the initiative of our organization that aims to resolve problems in municipalities with direct involvement of the local population and with the mediation provided by our organization.

TI Georgia is going to present the information on the identified problems to the respective local self-governments in the Municipality prior to the adoption of the draft budget so that the issues are resolved in 2020. The problems identified by our Committees of Concerned Citizens should be an important source for the municipalities to identify the needs in these settlements.

We present you the problems identified by the citizens:

### KAKHETI

KVARELI	
TYPE OF PROBLEM	DEMAND OF THE POPULATION
Poor infrastructure	<ul style="list-style-type: none"> <li>Improving and the periodic cleaning of the so-called Kirovi Park</li> <li>Periodic cleaning of the squares and parks in Kvareli</li> </ul>
